I would love insight on individuals who are currently being served by the Public Defender's Office who are now categorized as individuals who are no longer eligible for housing options through DSS as well as Catholic Charities due to decisions made in the past. Are there other housing opportunities that I should look into for these individuals or would you recommend that they seek housing options outside the county? If that is the case, would the county assist the individual relocate to the surrounding areas? I have two individuals specifically that I am really struggling with and I want to make every effort to assist them find adequate housing so they are less likely to reoffend resulting in additional charges against them. Thank you for your assistance. Any assistance is greatly appreciated.
